ÚNMZ Decision No 5/2017 of 31 January 2017

Branch 0800 - Fire safety in buildings

# PRODUCT CERTIFICATE

No. 204/C5a/2023/080- 025250

In accordance with the provisions of Section 5a of Government Regulation No. 163/2002 Coll., laying down technical requirements for selected construction products, as amended by Government Regulation No. 312/2005 Coll. and Government Regulation No. 215/2016 Coll., the authorised person confirms that for the construction product

## **FIRE-KILL Low Pressure Water Mist System™**

Manufacturer:

**VID Fire-Kill**

Address: Svalbardvej 13, DK-5700 Svendborg, Denmark  
manufacturing plant: Svalbardvej 13, DK-5700 Svendborg, Denmark  
contract:Z080220053

reviewed the documentation submitted by the manufacturer, carried out an initial type-examination of the product on a sample, carried out an initial on-site verification, assessed the production management system and found that

- the mentioned product complies with the requirements related to the basic requirements of the aforementioned government regulation set out in the Building Technical Certificate:

STO No. 080-025248 dated 14 April 2023 issued by authorized person 204 with validity until 14 April 2026

- the production management system complies with the relevant technical documentation and ensures that the products placed on the market meet the requirements set out in the aforementioned building technical certificate and comply with the technical documentation referred to in Section 4(3) of the aforementioned Government Regulation.

An integral part of this certificate is the protocol on the result of certification No. 080-025249 dated 21.04.2023, which contains the conclusions of the survey, verification and test results, basic description and, if necessary, the display of the certified product necessary for its identification.

This certificate was first issued on 21.04.2023 and shall remain valid for as long as the requirements set out in the Building Technical Certificate to which reference has been made or the manufacturing conditions at the place of manufacture or the production management system do not change significantly or unless the authorised person amends or withdraws this certificate.

The authorised person shall supervise the proper functioning of the manufacturer's production management system at least once every 12 months and shall assess whether the product's characteristics comply with the construction technical certificate in accordance with the provisions of Section 5a(2) of the aforementioned Government Regulation. The authorised person shall issue a report on the evaluation of the surveillance, which shall be forwarded to the manufacturer.
